INDEX

Aagaard, Vilhelm A.
Crazing in Concrete and the Growth of Hair Cracks into Structural Cracks, 190.

Aggregates.
Light-Weight Aggregates in the Manufacture of Concrete Masonry Units, by A. W. Scheer, 436.
Report of Committee E-5, 777.

Ahlers, John G.
Discussion, 83, 89.

Allen, Leslie H.
Concrete Roofing Tile Problems, 336.

Allen, V. D. M.
Discussion, 850.

Architecture, Use of Concrete in,
Decorative Painting on Concrete, by Sidney F. Ross, 101.
Reinforced Concrete as Applied to Monumental Buildings, by Emil Praeger, 105.
Reinforced-Concrete Walls for Buildings, by W. E. Hart, 123.

Arnold, M. A.
Need for National Certification Plan for Cast Stone Industry, 352.
Discussion, 362.

Atwater, R. W.
Workability Means Durability to the Engineer, 70.
Discussion, 493.

Barney, W. J.
Discussion, 493.

Bates, P. H.
Cement as a Factor in the Workability of Concrete, 43.
Some Studies of the Crazing of Portland Cement Mortars, 179.
Discussion, 95, 206, 210.

INDEX

Aagaard, Vilhelm A.
Crazing in Concrete and the Growth of Hair Cracks into Structural Cracks, 190.

Aggregates.
Light-Weight Aggregates in the Manufacture of Concrete Masonry Units, by A. W. Scheer, 436.
Report of Committee E-5, 777.

Ahlers, John G.
Discussion, 83, 89.

Allen, Leslie H.
Concrete Roofing Tile Problems, 336.

Allen, V. D. M.
Discussion, 850.

Architecture, Use of Concrete in,
Decorative Painting on Concrete, by Sidney F. Ross, 101.
Reinforced Concrete as Applied to Monumental Buildings, by Emil Praeger, 105.
Reinforced-Concrete Walls for Buildings, by W. E. Hart, 123.

Arnold, M. A.
Need for National Certification Plan for Cast Stone Industry, 352.
Discussion, 362.

Atwater, R. W.
Workability Means Durability to the Engineer, 70.
Discussion, 493.

Barney, W. J.
Discussion, 493.

Bates, P. H.
Cement as a Factor in the Workability of Concrete, 43.
Some Studies of the Crazing of Portland Cement Mortars, 179.
Discussion, 95, 206, 210.

Beggs, George E.
Discussion, 407.

Benson, Newton D.
Discussion, 453.

Bergholm, A. O.
Discussion, 534.

Bertin, R. L.
Water as a Factor in Workability, 67.

Bird, M. F.
Discussion, 464.

Bogart, C. Van de.
Specifications for Concrete Stone, 348.
Discussion, 362.

Bourne, C. L.
Discussion, 435, 849, 851.

Bragger, E. Y.
Discussion, 362.

Brickett, E. M.
Discussion, 95.

Bright, John Irwin.
Discussion, 142.

Brown, H. W.
Discussion, 98.

Buildings.
Reinforced Concrete as Applied to Monumental Buildings, by Emil Praeger, 105.
Reinforced-Concrete Walls for Buildings, by W. E. Hart, 123.
Heavy Duty Concrete Floors, by C. E. Covell, 454.
Standard Building Units, Report of Committee P-1, 834.

Building Code.
Design and Cost Data of the 1928 Joint Standard Building Code, by Arthur R. Lord, 537.
Report of Committee E-1, 786.

Bullen, C. A.
Discussion, 361.

Conahey, George.
A Study of Some Methods of Measuring Workability of Concrete, 24.
Discussion, 91, 93, 94, 96, 97, 100.

Chapman, Cloyd M.
Discussion, 91, 211, 453, 533, 534, 849.

Christensen, Axel O. L.
Crazing in Concrete and the Growth of Hair Cracks into Structural Cracks, 190.

Christensen, Einar.
Discussion, 440, 448, 449, 851.

Chubb, Joseph H.
Discussion, 831.

Collins, D. R.
How a State Law Helped Concrete Building Units in Wisconsin, 432.
Discussion, 435.

Columns.
Review of the Discussion of the Reinforced-Concrete Column, by Phil J. Markmann, 424.

Committee Reports.
E-3: Researches on Concrete Materials and on Plain and Reinforced Concrete, 745.
E-5: Aggregates, 777.
E-1: Reinforced-Concrete Building Regulations and Specifications, 786.
P-1: Standard Building Units, 834.
S-6: Concrete Roads and Pavements, 852.

Concrete Crazing.
Notes on the Progress of Some Studies of the Crazing of Portland Cement Mortars, by P. H. Bates and C. H. Jumper, 179.
Crazing in Concrete and the Growth of Hair Cracks into Structural Cracks, by Alfred H. White, Vilhelm A. Aagaard and Axel O. L. Christensen, 190.
Discussion, 202.

Concrete Design.

Carrying Capacity of Semi-Circular Hooks, by T. D. Mylrea, 240.
The Design and Construction of a Skew Arch, by S. C. Hollister, 371.
The Calculation of Flat Plates by the Elastic Web Method, by Joseph A. Wise, 408.
Review of the Discussion of the Reinforced-Concrete Column, by Phil J. Markmann, 424.
Design and Cost Data of the 1928 Joint Standard Building Code, by Arthur R. Lord, 537.
Report of Committee E-1, 786.

Concrete Products.

Concrete Roofing Tile Problems, by Leslie H. Allen, 336.
Viewpoint of Architect and Engineer Regarding Concrete Products, by Geo. J. Eyrick, Jr., 343.
Specifications for Concrete Stone, by C. Van de Bogart, 348.
Need of National Certification Plan for Cast Stone Industry, by M. A. Arnold, 352.
Pacific Stone—A Dry Tamped Product, by Gilbert E. Tucker, 357.
Formulating Portland Cement Stucco, by Wm. S. Steele, 363.
How a State Law Helped Concrete Building Units in Wisconsin, by D. R. Collins, 432.
Experience in the Use of Light-Weight Aggregate in the Manufacture of Concrete Masonry Units, by A. W. Scheer, 436.
Drying Concrete Brick to Take Out the Shrinkage, by L. E. Grube, 451.
Report of Committee P-1, 834.

Concrete Strength.

A Method of Predicting Concrete Strengths With Increased Precision, by Herbert J. Gilkey, 49.

Crabbs, Austin.

Discussion, 361.

Covell, C. E.

Heavy Duty Concrete Floors, 454.

Dalco, L. A.

Discussion, 361.

Davis, Raymond E.

Flow of Concrete Under Sustained Compressive Stress, 303.
Discussion, 210, 302.

De Spirt, A. C.

Discussion, 464.

Doe, Nelson L.
What Workability Means to the Contractor, 77.

Douglass, A. S.
Discussion, 90, 95, 465.

Drusbach, E. E.
Discussion, 160.

Dwyer, J. R.
Cement as a Factor in the Workability of Concrete, 43.

Emerson, Frederic M.
Discussion, 355.

Evans, Weston S.
Discussion, 177.

Eyrick, Geo. J., Jr.
Viewpoint of Architect and Engineer Regarding Concrete Products, 343.

Floors.
Heavy Duty Concrete Floors, by C. E. Covell, 454.

Franklin, Jack
Discussion, 448.

Gilkey, Herbert J.
A Method for Predicting Concrete Strengths with Increased Precision, 149.*
Discussion, 238, 530, 739.

Goge, R. B.
Discussion, 465.

Goldbeck, A. T.
Gradation and Character of Aggregates as a Factor in Workability, 56.

Gresecke, F. E.
Discussion, 148.

Grube, L. E.
Drying Concrete Brick to Take Out the Shrinkage, 451.
Discussion, 453.

Harrington, W. C.
Discussion, 448.

Hart, W. E.
Reinforced-Concrete Walls for Buildings, 123.
Discussion, 146, 148, 465.

Hatt, W. K.
Discussion, 207, 210, 744, 832.

Hollister, S. C.
The Design and Construction of a Skew Arch, 371.
Discussion, 405, 407.

Hughes, E. E.
Discussion, 833.

Ingberg, S. H.
Discussion, 449, 832, 849.

Jackson, F. N.
Discussion, 785.

Johnson, Nathan C.
Better Concrete—Do We Mean It?, 480.
Discussion, 104, 121, 147.

Johnson, Robert C.
Experience With a Strength Specification Contract, 466.

Johnson, Virgil L.
Discussion, 144, 494.

Jumper, C. H.
Some Studies of the Crazing of Portland Cement Mortars, 179.

Kitts, Joseph A.
Discussion, 475.

Kremers, Earnest.
Discussion, 361.

Larson, Louis J.
Discussion, 264.

Leavitt, H. Walter.
Discussion, 177.

Levinsohn, R. W.
Discussion, 361.

Lindau, A. E.
Discussion, 270, 832, 833.

Locke, C. E.
Discussion, 833.

Lord, Arthur R.
Design and Cost Data for the 1928 Joint Standard Building Code, 537.
Discussion, 744.

Markmann, Phil J.
Review of the Discussion of the Reinforced-Concrete Column, 424.
Discussion, 401.

McGuire, D. D.
Discussion, 785.

McMillan, F. R.
Concrete Primer, 495.
Discussion, 93, 96, 532, 829, 831, 832, 833.

Menefee, F. N.
Discussion, 205.

Mills, R. E.
Discussion, 202.

Miner, J. L.
Discussion, 453.

Morrill, A. B.
Discussion, 93.

Mueller, J. W.
Discussion, 361.

Munsell, A. W.
Discussion, 98.

Mylrea, T. D.
Carrying Capacity of Semi-Circular Hooks, 240.
Discussion, 270, 271, 272.

Oesterblom, I.
Discussion, 447, 449.

Pearson, J. C.
Discussion, 94, 449.

Perrot, E. G.
Discussion, 146.

Posey, C. J., Jr.
Discussion, 270.

Powers, E. S.
Discussion, 146, 494.

Praeger, Emil.
Reinforced Concrete as Applied to Monumental Buildings, 105.

Price, P. W.
Discussion, 148.

Rae, James C.
Discussion, 832.

Reinforced-Concrete Structures.
Reinforced Concrete as Applied to Monumental Buildings, by Emil Praeger, 105.
Reinforced-Concrete Walls for Buildings, by W. E. Hart, 123.
Some Features of the Testing of Stevenson Creek Arch Dam, by W. A. Slater, 273.
The Design and Construction of a Skew Arch, by S. C. Hollister, 371.

Richart, F. E.
Discussion, 833.

Research Bibliography.
Report of Committee E-3, 764.

Rockwood, E. F.
Discussion, 464.

Roscoe, R. E.
Discussion, 785.

Ross, Sidney F.
Decorative Painting on Concrete, 101.

Scheer, A. W.
Experience in the Use of Light-Weight Aggregate in the Manufacture of Concrete Masonry Units, 436.

Shank, J. R.
Discussion, 327.

Slater, W. A.
Some Features of the Testing of Stevenson Creek Arch Dam, 273.
Discussion, 147, 270, 272, 478, 535.

Smith, George A.
A Study of Some Methods of Measuring Workability of Concrete, 24.

Spurney, F. E.
Discussion, 98.

Standards.
Tentative Standard Reinforced-Concrete Building Regulations and Specifications, 786.
Tentative Amendment of Standard Specifications for Concrete Block and Concrete Building Tile, 834.
Standard Specifications for One-course Portland Cement Concrete for Highways, 852.

Steele, Wm. S.
Formulating Portland Cement Stucco, 363.

Stewart, G. M.
Discussion, 534.

Talbot, A. N.
Discussion, 96, 97, 99.

Tests.
A Method for Testing Concrete in the Field, by C. A. Wiepking, 212.
Some Features of the Testing of Stevenson Creek Arch Dam, by W. A. Slater, 273.
Flow of Concrete Under Sustained Compressive Stress, 303.
Method of Test for Abrasion of Gravel, 777.

Thoman, Wm. H.
Discussion, 739.

Toch, Maximilian.
Discussion, 208, 341.

Tucker, Gilbert E.
Pacific Stone—A Dry Tamped Product, 357.

Upson, M. M.
President's Address, 21.
Discussion, 100.

Walker, C. G.
Discussion, 367.

Wasson, J. H.
Discussion, 87.

White, Alfred H.
Crazing in Concrete and the Growth of Hair Cracks into Structural Cracks, 190.
Discussion, 97.

Wiepking, C. A.
A Method for Testing Concrete in the Field, 212.
Discussion, 98, 439, 449.

Wilk, Benjamin
Discussion, 448, 453.

Williams, G. M.
Discussion, 87.

Wise, Joseph A.
The Calculation of Flat Plates by the Elastic Web Method, 408.
Discussion, 423.

Workability.
Some Methods of Measuring, by George A. Smith and George Conahey, 24.
Cement as a Factor, by P. H. Bates and J. R. Dwyer, 43.
Gradation and Character of Aggregates as a Factor, by A. T. Goldbeck, 56.
Water as a Factor, by R. L. Bertin, 67.
Workability Means Durability to the Engineer, by R. W. Atwater, 70.
What Workability Means to the Contractor, by Nelson L. Doe, 77.
Symposium Discussion, 83.

Zabriskie, W. F.
Discussion, 830.
